

The LIFE CLIVUT project - LIFE18 GIC/IT/001217 has received funding from the LIFE Programme of the European Union.

LIFE CLIVUT

CLIMATE VALUE OF URBAN TREES

TOGETHER TOWARDS A STRATEGIC PLAN FOR URBAN GREEN ASSETS

The LIFE CLIVUT aims at creating a widespread consciousness of the value of urban green assets and at implementing concrete actions for maximizing their functions against the impact of climate change.

The project foresees a combined set of actions addressed to the main actors of the urban communities; public planners, citizens, youngsters and entrepreneurs.

The general objective is to develop and implement the Urban Climate Green Asset Strategy in 4 medium-size Mediterranean cities based on the shared planning and management of the urban green and natural spaces.

The strategy designed according with an ecosystem-based approaches, will improve urban green areas adaptation capacity, maximize urban green asset climate mitigation potential and deliver biodiversity and nature conservation benefits improving human safety, health and well being.
